Dual Camera Dashcam

DrivePro 620

The DrivePro 620 is an ultimate pair of dashcams including a front camera and a rear camera. Featuring high-sensitivity image sensors, it delivers crystal clear sharpness and night images even in low light. 1440P 2K QHD recording at 60fps ensures smooth image capture and clear critical shots. With built-in safety functions like a head-up display, emergency recording, and more, the DrivePro 620 is bound to protect your journey all round.

Vision in the dark

The DrivePro 620 includes one front camera and one rear camera. Both feature a high-sensitivity image sensor to capture high-resolution images in superb, rich color even in low light. Supporting 1440P 2K QHD recording at 60fps, the DrivePro 620 offers smooth footage as well as crisp still images.

Dual camera recording, double the safety.

Packed with compact front and rear cameras, the DrivePro 620 monitors both the road ahead and behind simultaneously in ultra-high resolution, which means extra security for your journey. The 140° wide-angle view makes sure no details are missed. Plenty of smart functions make every journey safer.

Wi-Fi connectivity

The DrivePro 620 features Wi-Fi connectivity to connect it to the exclusive DrivePro App for real-time footage playback and download. When Wi-Fi is activated in the front camera, the rear camera will be automatically connected to Wi-Fi as well. This means ease of access to video evidence for reporting incidents to law enforcement and insurance companies without having to remove the memory card.

Dual Camera Dashcam
DrivePro 620

Features

- Dual camera recording for all-round protection
- Built-in Wi-Fi function for mobile live streaming
- Built-in battery prevents losing crucial images in the event of a power outage

DrivePro App

DrivePro App is designed for use with DrivePro dashcams featuring Wi-Fi connectivity. Stream videos and adjust settings from your mobile device, and download footage for on-the-go!

DrivePro Toolbox

DrivePro Toolbox helps you play and manage videos recorded on your DrivePro dashcam without installing any separate codecs.
