

USB 3.1 Gen 1

JetFlash[®] 760

Using advanced USB 3.1 Gen 1 technology, the extremely fast JetFlash 760 allows you to transfer, store and share numerous or large files quicker than ever before. For added style and convenience, a brightly-colored sliding USB connector not only protects the drive and its contents, while doing away with that easy-to-lose end cap.

Classic chic design

The JetFlash 760 features a classic streamlined design with a brightly-colored sliding USB connector in a balanced mix of form and function.

Retractable connector

USB end caps are easy to misplace, and so, for extra convenience, Transcend's JetFlash 760 comes in a capless, retractable design that not only protects the device and its contents, but is compact and easy to carry around.

USB 3.1 Gen 1 JetFlash® 760
