## Memory Cards | SDXC/SDHC 700S

Transcend's SDXC/SDHC 700S memory cards provide the performance and capacity necessary to harness the full power of your UHS-II compliant DSLR cameras and camcorders. With the incredible transfer speeds, the cards allow professional outdoor photographers and videographers to capture flawless RAW images, and record ultra-high quality 8K videos.

Perfect for 8K, 3D, and Full HD recordings

Up to 64GB storage capacity

- Compliant with UHS-II U3 and V90 standards
- Protection against extreme conditions
- Exceptional reliability and long-life data retention
- Transcend's RDF9 card reader is recommended for the optimized performance
